

OOREP Case Portal -- Project Backup

Generated: 2026-05-02 17:03:21

Project Overview

Name: OOREP Case Portal

Location: /home/walker/projects/oorep-case-portal

Tech Stack: Next.js 14.2.3 + React 18 + TypeScript + Tailwind CSS v4

Database: File-based JSON (~/.hermes/data/oorep-case-portal/)

Payments: Stripe PaymentIntents (\$49 USD per case)

Auth: PBKDF2-hashed admin password + cookie sessions

Repertory: Python OOREP execution

PDF: Python fpdf2 generation

Dev Server: http://localhost:3456

How to Resume

cd /home/walker/projects/oorep-case-portal

NEXT_TELEMETRY_DISABLED=1 npx next dev --port 3456

Production: npm run build && npm start

Environment Variables

STRIPE_SECRET_KEY -- Required for payment processing

NEXT_PUBLIC_BASE_URL -- Optional, defaults to localhost:3456

Data Directory

Path: ~/.hermes/data/oorep-case-portal/

cases/*.json -- Case documents (one per case)
files/ -- Uploaded practitioner attachments
pdfs/ -- Generated draft and final PDFs
.admin_pass_hash -- PBKDF2-salted password hash
.admin_sessions.json -- Valid admin session tokens

API Routes Reference

POST	/api/cases	Create a new case submission
POST	/api/upload?case_code=	Attach files to a case
POST	/api/payment/intent	Create Stripe PaymentIntent (\$49)
POST	/api/payment/confirm	Confirm payment & mark paid
GET	/api/status?code=	Lookup case status by code
POST	/api/admin/auth	Admin login / first-time setup
GET	/api/admin/cases	List all cases (optional ?status=)
GET	/api/admin/cases/[id]	Get single case details
PATCH	/api/admin/cases/[id]	Update case (status, notes, etc)
POST	/api/admin/repertorize	Run OOREP Python repertorization
POST	/api/admin/pdf	Generate draft or final PDF

Frontend Pages

/ -- Landing page (hero, How It Works, privacy)
/submit -- Practitioner case form + payment flow
/status -- Case status tracker (enter case code)
/admin/login -- Admin password login + first-time setup
/admin -- Case queue dashboard with filters
/admin/review/[id] -- Full review: repertorize, PDF, mark sent

Case Status States

pending_payment	Case submitted, awaiting \$49 payment
paid	Payment confirmed, in admin queue
reviewing	Admin actively reviewing case
draft_ready	Draft PDF generated, pending approval
approved	Final PDF generated, ready to send
sent	Report delivered to practitioner
refunded	Payment refunded

Next Steps Checklist

A. Payment & Upload

- ☐ Install Stripe.js for frontend checkout
- ☐ Add real Stripe Elements in /submit
- ☐ Verify file upload works end-to-end with real files
- ☐ Graceful 'payment unavailable' UI when STRIPE_SECRET_KEY missing

B. Admin Authentication

- ☐ Add middleware.ts protecting /admin/* routes server-side
- ☐ Admin logout button in dashboard
- ☐ Session expiry warning + redirect

C. Review Workflow

- ☐ Confirm OOREP Python script path matches execFile call
- ☐ Confirm fpdf2 installed + script path matches PDF generator
- ☐ Add /api/admin/pdf/download?id= endpoint
- ☐ Status page: PDF download link when status === 'sent'

D. Practitioner UX

- ☐ Email notification on case creation (optional SMTP)
- ☐ Status checker: full case detail view after search
- ☐ Landing page: testimonials, FAQ, sample report snippet

E. Production

- ☐ Wire STRIPE_SECRET_KEY into environment
- ☐ Configure reverse proxy (nginx/Caddy)
- ☐ Enable output: standalone for next start
- ☐ Add data dir to nightly backup

F. Testing

- [] Full walkthrough: submit -> pay -> upload -> admin login
 - > review -> repertorize -> draft PDF -> final PDF
 - > mark sent -> status check
- [] Edge cases: empty case, missing modalities, no admin password
